

HALE INTELLIGENT
FARMING

The most sustainable way
to farm.

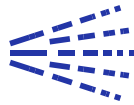

**A versatile chemical-free alternative
for fomite disinfection**

Aqueous

Chemical-free,
aqueous ozone for
fomite control

Sanitization

Spray application to
reduce pathogens
and biofilm

No chemicals

Reduces/eliminates
hot water & chemical
usage for cleaning

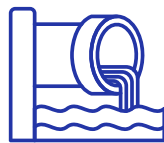

Zero byproducts

No residual
byproducts

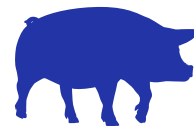

Transportation

Cost-effective
truck trailer
washdown

Less waste

Reduction of effluent
to waste facilities

Animal safe

Safe for use
on animals

Disinfect

Better reduction of
bacteria and mold

**Fomite disinfection for all
surfaces, animals, manure
pits, and washdown**

**Peer-reviewed research and more pending
efficacy studies with Iowa State University
and
the Swine Health Information Center**
